

Math Directive Tests

Test the `math` directive. A simple formula:

$$\alpha > \beta$$

One with a horizontal line:

$$\frac{2 + \sqrt{7}}{3}$$

Styled version (blue, larger & centered):

$$\frac{2 + \sqrt{7}}{3}$$

This below should go in two lines:

$$(a + b)^2 = a^2 + 2ab + b^2$$

$$(a - b)^2 = a^2 - 2ab + b^2$$
